****NOTICE REGARDING WINTER STORM****

We would like to inform you that a winter storm is expected to begin Saturday, January 24th, and continue into Monday, January 26th. To facilitate effective snow removal, we kindly ask all tenants to move their vehicles to the center of the parking lot.

If your vehicle is currently parked in the highlighted area on the attached map, please relocate it to the middle of the lot. This will allow our snow removal team to efficiently clear the parking area and ensure safety for everyone.

Additionally, to allow for proper sidewalk clearing, please avoid parking with vehicle bumpers extending over sidewalks. Snowblowers and maintenance equipment are unable to properly clear sidewalks when they are obstructed.

If you have any questions or need assistance, please reach out to Property Management at (410) 758-8634.

Thank you for your cooperation!
